Terrible Accident Resulting from the Explosion of a Kerosene Lamp in Fulton Last Night-Captain Rice's Sad Loss.

As a result of the explosion of a kerosene lamp in the dining-room of th residence of Captain D. F. Rice, No. 427 Denny street, Fulton, last night, his infant daughter, Ruth aged 1 year and H months, was burned to death, and his 13year-old daughter, Mamie, and his mother, Mrs. Celia Rice, were badly burned.

Captain Rice is commander of the edar-Works' tug Lucille Ross, and he and his wife are now on the river en route home from Norfolk, whither they have been on a trip for the past two days. They know nothing of the sad accident, and will return home some time to-day to find their baby girl cold in death, and their other loved ones in

EXPLODED WITHOUT WARNING.

The three unfortunates were in the dining-room about 6:30 o'clock yesterday afternoon, and the lamp, an ordinary glass affair such as is in every-day use, was on the table, having just been lighted. Mrs. Rice and the elder girl were scated near the table and the infant was playing about on the floor. Suddenly, and without warning, the lamp exploded, scattering its burning fluid all over the room and completely enveloping the infant in flames. The two older people were. so shocked by the suddenness of the accident that they were panic-stricken and no effort was made by them to save the little one, who was fast being consumed by the flames.

The residence is situated just opposite No. 8 Engine-House, and the gentlemen scated in the doorway there had their attention attracted by the flash of the lamp as it exploded. Mesers, C. H. Weimer, James L. Grubbs, John Conway, and C. L. Lear rushed at once into the house, and when they entered the room a most appalling scene met their horrifled gaze. The grandmother and the elder girl were rushing around the room, which was itself on fire, fighting the flames which were attacking them, and the baby girl lay prone on the floor with fiames sixteen inches high consuming her.

COULDN'T SAVE THE BABY.

The rescuers at once extinguished the fire and Dr. B. L. Reams was summoned. The two elder of the unfortunates were made as comfortable as possible under the circumstances, and all that was possible to be done was done to save the little one, but in valu, and at five minutes after 9 o'clock it breathed its hast, Mrs. Rice was badly burned along her

right 1-m, and Mamie was burned from her hand to her elbow on her right arm. An effort was made to communicate with the parents of the unfortunate children, but they had sailed from Norfolk, and the sad news will not reach them until they arrive in Richmond some time to-day. In the mean time the neighbors are doing all they can to alleviate the suffering of the two who still live.

"From the first you have helped the hunted Armenians by your prayers, your sympathy, and your honest, hard work. Thousands of them are to-day in comfort or in safety because of the intelligence and devotion with which you have wrought for our Christian brothers and sisters and the little children of those bleak and dangerous hillsides and in those valleys smitten by outrage and nurder. It is a blessed fact that patient continuance in well doing is the foremost quantity in a White Ribboner, for we must do our first works over again, 'and more er first works over again, and more

The more forceful among them are determined to risk all in the effort to reach freedom, and while it is not for us to strengthen this purpose on their part, we must hold ourselves in readiness to help the refugees who are constantly es-caping from the dominion of the Turk. It is true we are a temperance society, is true we are a temperance society but in an exigency like this one word but in an exigency like this one word can only measure the depth of our sacred obligation, and that word is humanity. We are Christian women, and if we would not strive to help the people who, of all others since the world began, have suf-fered most for Christ, then we might well strike that Holy name out of our own. Already we have commissioned Mrs. Laura Ormiston Chant to go to Bulgaria and report the situation. It is Mrs. Laura Ormiston Chant to go to Bulgaria and report the situation. It is quiet likely that Lady Henry Somerset and her son will soon follow for the purpose of establishing the refuse, which will be but one of a line of refuses, of which Lady Somerset writes as follows: "We must acrange all along the coasts in Russia, Armenia, and Bulgaria, touch-ling as near Turkish territory as possible, refuses to which the fleeing Armenians
